

Application Serial No. 09/994,521
Attorney's Docket No.:07326-002002

Amendment to the Claims:

This listing of claims replaces all prior versions, and listings, of claims in the application:

1. (Previously presented) A wireless computer system comprising:

a base storage and control system including:

a processor, receiving and using an input signal in real-time, the input signal being for use in interacting with an application program being executable at the base storage and control system,

a non-volatile memory,

a display element producing an output signal based on the input signal and execution of the application program, said output signal being produced in bursts, with delays between the bursts, during which delays, no information is transmitted, and

a wireless transceiver that wirelessly communicate the display output signal when produced;

at least one portable input-output system for use with the base storage and control system, the portable input-output system including:

a wireless transceiver, which wirelessly communicates the input signal to the base storage and control
